

Simple Twist of Fate - DTS Does Dylan

Dave's True Story

BeBop Records

Dylan done up into jazz lite? No, not quite. Dave's True Story distills Dylan's music into a single-malt jazz buzz. Take their rumba-beat rendition of "Simple Twist of Fate." Sergio Mendes would be pleased. "I Want You" gets slowed down and juiced up with a powerful backbeat. Their tempo on "Just Like Tom Thumb's Blues" kicks it up a notch or two, and instead of Mike Bloomfield Tele-licks the guitarist Dave Cantor adds pedal steel stylings. Lead vocalist Kelly Flint's voice has just the right amount of world-weary experience to deliver Dylan's lyrics without sounding trite or soulless. Even hard-core Dylan purists should give this a listen. – *Steven Stone*
